

PRISM HARDSCAPES
Outdoor Living Products

2021 Product Guide

Tavola 5

We believe in spaces that are not only designed for living, but for making memories and enjoying life.

Prism Hardscapes is a progressive company that focuses on well designed outdoor living products. We are committed to current architectural trends, visionary designs, coupled with handcrafted techniques that allow for products that are beautiful as well as affordable. We are always at the forefront of exceptional product design, quality, and value in the outdoor living space.

Backed by over 100 years of experience, Natco Home is a family owned business that was established in 1917. Natco Home is one of the largest and most respected companies in the Home Textiles, and Outdoor Living Products industries with wholly owned manufacturing facilities in Georgia, Maine, California and Toronto, as well as several joint ventures in China, Poland, Egypt, Turkey and Mexico. Natco Home delivers today's hottest home fashion colors and designs at surprisingly affordable price points.

A photograph of an outdoor patio at night. The patio is paved with large, light-colored stone tiles. In the center, there is a square fire pit with a blue flame. Surrounding the fire pit are several pieces of outdoor furniture: a black metal sofa with brown cushions, a black metal armchair with brown cushions, and two large, olive-green ottomans. To the left, there is a stone fireplace with a built-in grill. The background features a wooden fence, trees, and a house with a balcony. String lights are visible in the upper part of the image, and the overall atmosphere is warm and inviting.

We believe in spaces that are designed for living,
making memories, and enjoying life.

Elements Collection

Our Elements Collection offers beautiful pieces that combine 3 main elements: wood, concrete, and metal. A stout powder-coated metal frame is the foundation for all of the collection's fire features. Sturdy glass fiber reinforced concrete makes for a durable yet smooth-looking top centerpiece. While South American hardwood adds a decorative and refined appearance. The contrasting organic and industrial elements combine to create a look that is both intriguing and timeless.
