

# SAUSALITO PROPANE ENCLOSURE

**SPECIFICATIONS**

Width	16"
Height	21"
Weight	100 lbs.
Materials	Glass fiber reinforced cement

Place propane tank (not included) close enough to the fire feature to allow the hose to run freely without any kinks or pinching. Once the hose is securely connected to the propane tank, place the enclosure over the top of the tank, allowing the hose to exit the bottom cutout. DO NOT PLACE THE PROPANE ENCLOSURE ON TOP OF THE HOSE.
